

AHMAD VALENTAMA TARUNA

081904599000 | valentamacareer@gmail.com | www.linkedin.com/in/valentama-at

Business Statistics graduate with hands- on experience in data analysis, forecasting, anomaly detection, and data visualization. Experienced in processing and analyzing large-scale operational data, developing interactive dashboards using R Shiny and Power BI, and building data- driven web applications. Strong analytical and problem- solving skills, with a proven ability to collaborate across teams and translate data into actionable insights to support operational and business decision-making.

Work Experiences

Forestry Service - **Sidoarjo** Jan 2025

Data Analyst Intern

- Processed, cleaned, and analyzed raw timber and non- timber forest production data to support forestry sector performance monitoring and data-driven evaluation.
- Collaborated with a team to design and develop a Streamlit-based web application for data input and collection.

PLN UP3 Surabaya Selatan - **Surabaya** Feb 2026 - Jun 2026

Energy Transaction Intern

- Processed, consolidated, and cross- checked large- scale energy transaction data to ensure data accuracy and validity for operational reporting and analysis.
- Collaborated with a team to develop an interactive R Shiny forecasting dashboard to project kWh energy loss trends and support early warning monitoring.
- Developed the data pipeline and anomaly detection logic for a Power BI- based customer electricity consumption monitoring dashboard, including data processing and calculation of anomaly scores for faster and more accurate identification of abnormal consumption patterns.
- Developed a web- based internal inventory data entry application with three user roles to support structured data collection and inventory management within the division.

Education Level

Institut Teknologi Sepuluh Nopember - **Surabaya** Aug 2022 - Oct 2026

Applied Bachelor's Degree Business Statistics, 3.38/4.00

- Relevant Coursework: Data Exploration & Visualization, Business Forecasting, Machine Learning, Statistical Computing, Statistical Quality Control, Operations Research, and Computer Programming.

Organisational Experience

IHMSI Regional 4 Jan 2025 - Sekarang

Regional Treasurer

- Managed regional finances, including cash flow recording and budget allocation for organizational programs.
- Prepared and submitted financial accountability reports to the Central Treasurer.
- Coordinated with regional administrators and representatives of student associations to assess and manage budget requirements for work programs.

UKM Archery - **Surabaya** Jan 2024 - Dec 2024

Head of Logistics Division

- Managed staff performance by assigning responsibilities across divisional work programs and facilitating discussion sessions to address operational challenges.
- Oversaw the execution of divisional programs and provided recommendations to support effective operational decision-making.
- Managed, tracked, and maintained all operational assets and inventory owned by the student organization.
- Prepared divisional accountability reports for the Head of the Organization and coordinated cross-functionally with other divisions to align logistics requirements.

GERIGI ITS 2024 - **Surabaya** Jun 2024 - Aug 2024

Surveyor & Licensing Expert Staff

- Planned and coordinated site surveys and event licensing activities to support operational readiness.
- Designed event area mapping, including the allocation of activity zones and placement of key operational posts.
- Led and supervised field staff as a Regional PIC, ensuring the implementation of planned operational activities on site.
- Briefed relevant divisions on participant mobility plans to ensure effective coordination and smooth event operations.

ASEAN University Games 2024 Jun 2024 - Jul 2024

Competition Division Volunteer

- Monitored and cross-checked competition results in real time, helping minimize recording errors during matches.

Skills, Project & Others

- **Energy Loss Forecasting Dashboard - R Shiny** (2026) : * Developed an interactive R Shiny forecasting dashboard to project energy loss components by selecting the forecasting method with the lowest prediction error.
  * Designed an Excel-based input template for energy loss components to standardize data entry and minimize input errors.
  * Built interactive visualizations of historical component and energy loss data by region and component, along with forecast results presented through tables and line charts.
- **Electricity Customer Anomaly Detection Pipeline (Google Colab & Power BI)** (2026): * Developed a data processing and anomaly detection pipeline in Google Colab to identify abnormal electricity consumption patterns.
  * Analyzed multiple behavioral indicators, including average usage, standard deviation, daily operating patterns, and Z- scores, to determine customer anomaly scores.
  * Generated an Excel-based output containing processed data and anomaly identification results for further analysis and monitoring.
  * Collaborated on the Power BI implementation by translating analytical logic into business requirements and explaining the methodology to support its implementation in DAX.
- **Internal Inventory Management Web Application** (2026) : * Designed and developed a role- based internal inventory management web application using Google Apps Script, with Google Sheets as the database and Google Sites for deployment.
  * Implemented three user roles Field Officer, Admin, and Manager with role-specific features and workflows.
  * Developed inventory workflows covering asset requests, withdrawals, returns, and stock adjustments, with access and functionality personalized according to each user's role.
- **Soft Skills**: Analytical Thinking · Problem Solving · Attention to Detail · Leadership · Team Collaboration · Communication · Adaptability
- **Hard Skills**: Data Analysis · Data Cleaning & Processing · Exploratory Data Analysis · Statistical Analysis · Forecasting · Anomaly Detection · Machine Learning · Data Visualization · Dashboard Development · Power BI · R Shiny · R · Python · Google Apps Script · Microsoft Excel · Minitab · Streamlit · Data Pipeline Development
- **Interest** : Data Analytics · Business Intelligence · Data Visualization · Statistical Modeling · Forecasting · Machine Learning · Process Improvement
- **Certification** : MDP Consulting : Quality Management & K3L Management
